### **Writing Assignments:**

1. Write a paper that addresses how you plan to implement what you have learned and the skills you have acquired through participating in the on-site course to enhance the ability of people in your community to create build and sustain their community. The paper should include sections that indicate at least the following:

*Setting:* your role in your organization and the “community” or communities in which you will strive to implement what you have learned.

*Capacity:* how you will provide leadership in local development (local defined by your role responsibility) to empower and sustain communities for the future

*Organization:* how you will enhance the capability of the community to develop and use its own appropriate information and how will you engage people in forming viable community organization to sustain the efforts

*Partnering:* how you will assist people in the community to collaborate and develop new partnerships.

*Inclusivity:* how you will deal with issues of discrimination

Please give careful attention to both content and teaching methods as they relate to your expected outcomes. The purpose of this is to generate thinking from a learning/teaching point of view and to enhance one’s capacity as a teacher of community development. An educational process might take many forms (but is not limited to): setting up a mentoring process with one or more people; developing a set of materials for people to use; organizing and teaching one or more classes in community development; starting a new community leadership development class (e.g. EXCEL) or community dialogue series (e.g. Study Circle or Issues Forums).

2. Write a paper analyzing the four textbooks and indications for application.

**Final papers are due Friday, May 7, 2010. Papers submitted after that time will follow incomplete grade procedure (see below.)**

**All assignments are to be submitted to Johanna Reed Adams by mail, e-mail or fax (contact info below). To insure timely grading, since Johanna often travels, please send a courtesy copy of the assignments to Jon J. Hardy (contact info below).**

**NOTE:** We can adapt the dates for submission of assignments to meet a student's need to complete the course within the current semester. We have successfully accommodated students with this need in the past. We do, however, need to know

prior to the start of the course that this is a need of the student. Contact Johanna Reed Adams.

**Grading for the course will be based on the following:**

- 25% of grade will be based upon active participation in the course.
- 35% on paper integrating on-site course and notebook content into practice
- 40% on the paper analyzing the four textbooks and indications for application.

**Incomplete (I) Grade—**

When a student cannot be assigned a grade at the end of a course in which he/she has been enrolled because his/her work is incomplete for a good reason, the instructor will postpone the grade of the student, reporting to the Registrar the fact that such student's grade is I. An I grade **may be assigned only when (1) the completed portion of the student's work in the course is of passing quality, and (2) there is such evidence of hardship as to make it unjust to hold the student to the time limits previously fixed for the completion of his/her work.** The time allowed for the removal of an I grade is one calendar year from the date of its recording. If not altered, a grade of **F** will be assigned automatically (Does not apply to courses taken for graduate credit). When the incomplete work is accomplished, proper notification of the grade to be assigned will be provided to the University Registrar and the student.

**Grade or Transcript**

You can request a grade card for the class either by mail or fax. The request **must have your signature** on it. Grades will be mailed or faxed at no charge. Be sure to give the name of the class, class #, date you took it. Include your name, either student number or Social Security number, birth date and the address or fax number to which it should be sent. If you are requesting by mail, the address is **Registrars Office, University of Missouri, 130 Jesse Hall, Columbia, MO 65211.** If you are faxing, the number is **573-884-4530.** Don't forget your signature.

**Academic Honesty**

**Academic Integrity** is fundamental to the activities and principles of a university. All members of the academic community must be confident that each person's work has been responsibly and honorably acquired, developed, and presented. Any effort to gain an advantage not given to all students is dishonest whether or not the effort is successful. The academic community regards breaches of the academic integrity rules as extremely serious matters. Sanctions for such a breach may include academic sanctions from the instructor, including failing the course for any violation, to disciplinary sanctions ranging from probation to expulsion. When in doubt about plagiarism, paraphrasing, quoting, collaboration, or any other form of cheating, consult the course instructor. <http://facultycouncil.missouri.edu/handbook/article-6.html>
