

Language Testing Gets Easier: LAS Links Assessments Go Online

LAS Links Online accurately assesses Grades 2–12 English language proficiency using a secure, robust, online testing platform.

- Students' spoken and written responses are captured electronically, which allows teachers to score the responses anytime, anywhere.
- LAS Links Online™ provides rubrics and exemplary responses to help ease the scoring process and promote teacher professional development.
- Educators will have immediate access to informative diagnostic reports, allowing them to quickly determine vital information about a student's English language proficiency.
- LAS Links Online offers new forms on a yearly basis, providing the freshest academic language content to better measure a student's language proficiency within and across content areas.

Spend less time assessing and reporting and more time teaching and supporting learning with a cost-effective, easy-to-use Internet application.

- Provides quicker, easier, and more convenient ways to administer and score English language proficiency tests with a fully Internet-based solution.
 - *Immediate results to inform language instruction and recommend remediation.*
- Export data and reports into organized and easy-to-read reports and graphs that can be saved in the system and then shared with teachers and administrators to inform instruction, and if needed, recommend remediation.
- Eliminate the time consuming process of hand-scoring and manually calculating language proficiency test results.
- All domain assessments for reading, writing, listening, and speaking are group administered.
 - *Online group test administrations are extremely efficient because they minimize the time needed for administration and scoring, saving districts and schools considerable expense.*
